

Woebegone

Shelby Lynne

Woebegone, woebegone
Lord I've suffered way too long.
Lord I've suffered way too long.

Did I cause me all this pain
Should I have left things alone
Do I pay for my mistakes
Do I see me like before

I should have seen it coming
The crystal ball says it all
When I wake up to see me crying
Woebegone, woebegone

I should drive off of the road
I'm in a war I cannot win
I can't explain the worth of cryin'
I thought I had thicker skin

I should have seen it coming
The crystal ball tells it all
When I wake up to see me crying
Woebegone, woebegone, woebegone

I should have seen it coming
The crystal ball tells it all
When I wake up to see me crying
Woebegone, woebegone, woebegone
Woebegone, woebegone
