

# The Guy Who Invented Fire

Shellac

Invent a fire  
Gonna lay down in it  
Learn a lesson  
What they do with it

Invent a fire  
Keep it under my hat  
A lot of people out there  
Could use a thing like that

Invent a boat  
Make it out of wood and make it float  
Bust it up into firewood and burn it  
The fire was worth more than the boat
