

We Can Make It Through

Shelter

Worries piled high, you're on the edge,
you can't let go, you feel the stress,
you're so obsessed with all the debts you think you're owed
We create that victim inside, no different than suicide
and I'll be there no matter what you do, no matter what you choose
Cause we can make it through, yes, I know the ordeal,
I know how you feel but I believe, yes, I believe in you
Just do what you can do
What more can you ask, it's not just a task,
no matter what happens to you, we can make it through
We can make it through

Low self esteem, forgot how to dream but you're so tall
If you could only see in you what I see there would be no fear
at all
Cause problems that we start to find have originated in our mind
and we have the power and strength to just let go,
don't you think I know?

Cause we can make it through, yes, I know the ordeal,
I know how you feel but I believe, yes, I believe in you
Just do what you can do
What more can you ask, it's not just a task,
no matter what happens to you, we can make it through
We can make it through
We can make it

It's all good, yeah, sits all fine
If we can pacify our minds
Don't want you to feel left behind
Cause I'm right by your side
I'm right by your side
So no matter what you do

Cause we can make it through, yes, I know the ordeal,
I know how you feel but I believe, yes, I believe in you
Just do what you can do
What more can you ask, it's not just a task,
no matter what happens to you, we can make it through
