

What's Keeping Them Alive?

Shelter

Spent so many hours worried what people say
Approvals and rejections and opinions of the day
Of the day and I won't take it serious or let those feelings stay

Let it stay, keep on movin' forward and let's do it anyway

Ohohoh, stale lives (2x)

Time spent, live went, no action and no drive

And I can't tell what's keeping them all alive,
what's keeping them alive

You were sittin' in an arm chair, now we're calling out commands

Intimidating everybody but we must take a stand

Take a stand and I won't let it break me and I'm not gonna stay

We'll stay, gotta keep on moving, gonna do it anyway

Ohohoh, stale lives (2x)

Time spent, live went, no action and no drive

And I can't tell what's keeping them all alive,
what's keeping them alive

We keep on talkin', makes you feel like you got something to do

,

no one cares no more what is lies and what is truth

What is lies and what is truth

Truth

Ohohoh, stale lives (2x)

Time spent, live went, no action and no drive

And I can't tell what's keeping them all alive,
what's keeping them alive
