

Working Miracles

Shelter

Revelation's come over me, how precious we're meant to be,
life and all its mystery, I just took so cheaply
I just look around, I see working miracles
Eyes wide open, overwhelmed
Simple but profound I see working miracles
Hope that all this stays, never goes away,
from the seed right to the tree, from the sand right to the sea
,
from the sun shining down on me the miracle's upon me

I just look around, I see working miracles
Eyes wide open, overwhelmed
Simple but profound I see working miracles
Hope that all this stays, never goes away

Never want to lose this clarity
and slip back into the catastrophe of losing sight
and harmony with the miracles right in front of me

I just look around, I see working miracles
Eyes wide open, overwhelmed
Simple but profound I see working miracles
Hope that all this stays, never goes away
