

Every Road

Shenandoah

We all gotta chase a deep down feelin'
Needin', dreamin' somethin' bigger than we are
You can't see it, but you know it's waitin'
Out there, somewhere, hidin' out among them stars
No matter where you might run
You're part of where you come from

Every road, leads you home
There's a place out there where you'll find yourself
Gotta go
You never know where that blacktop river might flow
But you're never lost if you follow your heart
Every road

If you're the kind to take the one less traveled
Might be gravel leavin' from your daddy's farm
Could be a crowded city four lane highway
'Fore it's too late, gotta take it out of park
No matter where you might run
You're part of where you come from

Every road, leads you home
There's a place out there where you'll find yourself
Gotta go
You never know where that blacktop river might flow
But you're never lost if you follow your heart
Every road

Leads you home
Leads you home

No stop signs in the sky
So baby go on and fly

Every road, leads you home
There's a place out there where you'll find yourself
Gotta go
You never know where that blacktop river might flow
But you're never lost if you follow your heart
Every road

Leads you home
Leads you home
