

Die For You

Shenseea

Baby, drop your pin right now
Me a come make a link right now, right now
Yeah, me wet in a me draws right now, yeah
Why wait? 'Cause me just drive out

Yeah the way my nookie tight, coming like, say it feel brand new
You fi give me big deal whenever you drive-through
Me no want nothing quick, me no want no pass through
Want it ninety minutes long like a match at Man-U
Just give me pon the bed or give me pon the ground
Keep on coming back because of how you make me moan
If your name call pon, this you get little clout
If you can't make me cum, then the sex don't count

Just say, "Giddy up," and me will ride for you
Spit in my mouth 'cause me like that, too
We fuck all night, we nuh have curfew
Beg you please buss ina me insides, too
Me will do anything you want me fi do
My body guzu dung like me work voodoo
It good but anu that alone a hold you
Kill me with the body, me a die for you
Die for you
Me a die for you
Die for you

Tell me, baby, how much you bet?
It na go take me nothing fi get you erect
Me na nuh limit, like me Amex
Get anything me want, and me do it without the sex, issa flex, issa flex
Eat it up, me can smell you pon me breath
Me love it raw, me allergic to latex
The way me dweet you put a hickey pon me neck
The way me work hard me deserve a paycheck

Just say, "Giddy up," and me will ride for you
Tongue ina my mouth 'cause me like that, too
We fuck all night, we nuh have curfew
Beg you please buss ina me insides, too
Me will do anything you want me fi do
My body guzu dung like me work voodoo
It good but anu that alone a hold you
Kill me with the body, me a die for you
Die for you
Me a die for you
Die for you

Baby, knock my lights out
Use your hands and squeeze my throat
I'll die for you
Me a die for you
Baby drop your pin right now
Me a come make a link right now, right now
Yeah, me wet in a me draws right now, yeah
