

# Get Along

Shenseea

Something new everyday, can't get it right is it all just a phase?  
And I just drive away, never get far when I step on the brake  
And we fuck in the dark, when the sun rise another fight starts  
Guess we are who we are, we used to be close now what broke us apart?

I been thinking you got someone else  
I been thinking maybe I should too  
Used to feel like heaven now we go through hell  
Tell me what we gonna do?

Why can't we, get along, get along, get along?  
Why can't we, get along, get along, get along?  
It's fucking up my life and it's all that's on my mind  
Why can't we, get along, get along, get along?

Now I'm here all alone, got too much pride just to pick up the phone  
And now I'm good on my own, rather be yours, yeah I'd rather be home  
Now I really miss you, really miss us, now what we gonna do?  
Yeah I blame it on you, blame it on me, to tell you the truth

I been thinking you got someone else  
I been thinking maybe I should too  
Used to feel like heaven now we go through hell  
Tell me what we gonna do?

Why can't we, get along, get along, get along?  
Why can't we, get along, get along, get along?  
It's fucking up my life and it's all that's on my mind  
Why can't we, get along, get along, get along?

Me want go back to how we was before?  
Fight less and fuck little more  
Pride weh mi have hard fi fight, all wen it deh ya a tear me up inside  
I nuh want give up, 'cause I want you  
But we stuck and me nuh know what to do  
Used to can't go a day without you  
Now me just can't stay long next to you  
Because, one word turn out ina war  
The love a drop like a falling star  
It could be easy so why it so hard?  
I wanna know

(Why can't we just?) Why can't we, get along, get along, get along?  
(Why can we?) Why can't we, get along, get along, get along?  
(Why can't we just?) It's fucking up my life and it's all that's on my mind  
Why can't we, get along, get along, get along?
