

Subrosa (Come Closer)

Shenseea

Shenseea...

Nobody, nobody, nobody...

Nobody never make me feel like this

Oh, oh, oh...

Ah, ah, ah...

Nobody... nobody, nobody

Ain't nobody handle my body

And treat it the way you do

Promise you won't tell nobody

When I put this kitty on you

I got something special for you, come closer

In order to receive it, come closer

I don't want no space when you, come closer

Come on, let me give it to you, subrosa

Don't want nobody knowing 'bout me and you (subrosa)

Girls don't want you, until they see I do

They gon' want you too

Got a man, but I want you anyway

And when you call, I will show up any day

Love it when we gotta hide and steal it

Keep it, as our little treasured secret

Ain't nobody handle my body

And treat it the way you do

Promise you won't tell nobody

When I put this kitty on you

I got something special for you, come closer

In order to receive it, come closer

I don't want no space when you, come closer

Come on, let me give it to you, subrosa

My nigga do it right, but you do it better

You ain't my alpha, but you gon' be my omega

Your number stored in my phone as 'Forever'

Sit'n longer than 10-inch ruler weh measure

Said you'd be mine, baby

And that's no lie, baby

For life

Ain't nobody handle my body

And treat it the way you do

Promise you won't tell nobody

When I put this kitty on you

I got something special for you, come closer

In order to receive it, come closer

I don't want no space when you, come closer

Come on, let me give it to you, subrosa

Subrosa...

We both know I got another man

But you're the only one for me

Yeah, we know I got another man

Ain't nobody handle my body

And treat it the way you do
Promise you won't tell nobody
When I put this kitty on you
I got something special for you, come closer
In order to receive it, come closer
I don't want no space when you, come closer
Come on, let me give it to you, subrosa
