

Chasing The Sound

Sheppard

I've been losing drive
Feeling half alive
What the hell is going on?
Acting like a child
Senses going wild
Where the hell have I gone wrong?

So go put out the sun again
(Not gonna miss it, baby)
Plug me in
(Guess I'm addicted, baby)

Sleeping 9-to-5
I might not survive
But I don't care how far I fall

Chasing the sound of the music
Yeah I like it loud, it's therapeutic
Don't wanna be found, no
So I lose myself in the sound
It keeps me hanging on

You won't drag me away
There's nothing you can say
I'll be here 'til the band is done
Then I'll find another bar
With someone on guitar
Repeat until the break of dawn

So go put out the sun again
(Not gonna miss it, baby)
Plug me in
(Guess I'm addicted, baby)

Lurking like a stray
There's no way I'm OK
But damn, I really feel at home

Chasing the sound of the music
Yeah I like it loud, it's therapeutic
Don't wanna be found, no
So I lose myself in the sound
It keeps me hanging on

It'll all catch up with you
One day it'll all catch up with you
It'll all catch up with you
One day it'll all catch up with you

Chasing the sound of the music
Yeah I like it loud, it's therapeutic
Don't wanna be found, no
So I lose myself in the sound
It keeps me

Chasing the sound of the music
Yeah I like it loud, it's therapeutic

Don't wanna be found, no
So I lose myself in the sound
It keeps me hanging on
It keeps me hanging on
I said it keeps me hanging on
I said it keeps me hanging on
I said it keeps me hanging on
I said it keeps me hanging on
