

# Dance On The Sun

Sheppard

A splash of wine upon your table now the red stain is all that you see  
You try to clean it but you're only ever making it worse  
Your hands are tied and you've been labeled as a villain  
It's best you don't speak  
All you can do is try your best to think and live in reverse

A whirlpool  
Sucking you down in circles  
Spitting you out in slow motion  
Silence can be so cruel

Although it's dark now  
I know we're gonna make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun

I know it's hard now  
But we just gotta make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun, dance on the sun

Tune out the voices in your head cause they don't know what they're talking about  
Your demon wouldn't stand a chance if you could scare him first  
One by one we're picking all the pieces up  
So give me all the worst you've got and watch me turn it into love

Although it's dark now  
I know we're gonna make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun

I know it's hard now  
But we just gotta make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun, dance on the sun

After all this time  
It's hard to see the light  
So we close our eyes  
Just to feel...  
One by one we're picking all the pieces up  
So give me all the worst you've got, I'll turn it into love

Although it's dark now  
I know we're gonna make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun

I know it's hard now  
But we just gotta make it to sunrise  
It's not too far now  
One day we're gonna dance on the sun, dance on the sun  
One day we're gonna dance on the sun, dance on the sun
