

## Edge of the Night

Sheppard

Fifteen to five, another Friday afternoon  
Watching the weekend creeping closer into view  
Eye Of The Tiger on the highway home to you  
Home to you, home to you, home to you

Don't tell me you can't find time to party  
I don't wanna hear that damn excuse  
Baby if we can't go find a party  
Guess we'll have to make one here for two

Milk and honey, sunny delight  
I wanna take you on a  
Street safari party alright  
Into the wild jungle  
Ooh-ooh if you ain't scared of the fall  
We'll be hanging off the edge of the night, alright  
Supernova galactic kiss  
I wanna take you on a  
Street safari party like this  
Into the wild jungle  
Ooh-ooh if you ain't scared of the fall  
We'll be hanging off the edge of the night, alright

Fifteen to five, another sunrise next to you  
I spent my paycheck, now there's nothing left to lose  
Watching the ocean from a blanket on the roof  
On the roof, on the roof, on the roof

Don't tell me you can't find time to party  
I don't wanna hear that damn excuse  
Baby if we can't go find a party  
Guess we'll have to make one here for two

Milk and honey, sunny delight  
I wanna take you on a  
Street safari party alright  
Into the wild jungle  
Ooh-ooh if you ain't scared of the fall  
We'll be hanging off the edge of the night, alright  
Supernova galactic kiss  
I wanna take you on a  
Street safari party like this  
Into the wild jungle  
Ooh-ooh if you ain't scared of the fall  
We'll be hanging off the edge of the night, alright

So wake up the neighbors  
Sleep is overrated  
Jump on it, and shake it  
Baby, you're my favorite  
Go wake up the neighbors  
Sleep is overrated  
Jump on it, and shake it  
Baby, you're my favorite

Milk and honey, sunny delight  
I wanna take you on a

Street safari party alright  
Into the wild jungle
