

Got To Be Love

Sheppard

Without a warning, but sure enough
Life pulls the rug out from under us
Straight to the bottom and out of luck
Then all at once, you're burning up
In a fire
Never seen flames higher
Though you're broken and tired
And you're searching for somebody else to blame

It's got to be love
It's got to be love
It's got to be love that keeps us from giving up
It's got to be love
It's got to be love
It's got to be love that keeps us from giving up

Just a little bit of love
Little bit of love
Love will keep us from giving up
Just a little bit of love
Little bit of love
Love will keep us from giving up

Thought you were living a holiday
But now you're surviving a hurricane
Though all the twisting, the ups and downs
You lose your way
And I can feel your pain

Through the fire
Never seen flames higher
Though you're broken and tired
And you're searching for somebody else to blame

It's got to be love
It's got to be love
It's got to be love that keeps us from giving up
It's got to be love
It's got to be love
It's got to be love that keeps us from giving up

Just a little bit of love
Little bit of love
Love will keep us from giving up
Just a little bit of love
Little bit of love
Love will keep us from giving up

So if you've falling
Lost and lonely
Feeling the weight of the world crashing on you
Don't get stranded
Just take my hand and
Open your heart 'cause you know

It's got to be love
It's got to be love

It's got to be love that keeps us from giving up
It's got to be love
It's got to be love
It's got to be love that keeps us from giving up

Just a little bit of love
Little bit of love
Love will keep us from giving up
Just a little bit of love
Little bit of love
Love will keep us from giving up

Little bit of love
Little bit of love
Love will keep us from giving up
Just a little bit of love
Little bit of love
Love will keep us from giving up
