

# Hometown

Sheppard

No one understands  
They all think I'm a lucky man  
Truth is I'm in a rut  
(Oh ya ya hey)  
All this love and joy  
Even so I'm a lonely boy  
Close to giving it up

Cause baby life takes me places that I never dreamed I would find  
But still there's nowhere that I'd rather be than to be by your side

You are my hometown  
Where I can slow down  
We got it good, we got it all figured out  
You are my hometown  
Let there be no doubt  
We understood it's where I should be now

Well love just don't feel right  
When I don't have your hand in mine  
I'm scared you're slipping away  
(Oh ya ya hey)  
But once I'm homeward bound  
From the moment that I touch down  
I realise nothing has changed

Well baby mixing our chemicals often results in a fire  
But it's the heat of your heart keeping me holding onto the wire

You are my hometown  
Where I can slow down  
We got it good, we got it all figured out  
You are my hometown  
Let there be no doubt  
We understood it's where I should be now  
Ay ya ya ya ya  
Ay ya ya ya ya  
We understood it's where I should be now

Cause baby life takes me places that I never dreamed I would find, oh no no  
But still there's nowhere that I'd rather be than to be by your side

You are my hometown  
Where I can slow down  
We got it good, we got it all figured out  
You are my hometown  
Let there be no doubt  
We understood it's where I should be now

You are my hometown  
Where I can slow down  
We got it good, we got it all figured out  
You are my hometown  
Let there be no doubt  
We understood it's where I should be now

We got it good

We got it all figured out
