

# Live for You

Sheppard

Are we really breaking up  
Wasn't I for you, for you  
I gave my very best  
But I failed every test  
You put me through, it's true

If I changed my face  
My hair, my dress, my shape  
Would you stay, would you stay  
Just give me something to improve  
'Cause I need you always, always

Now I'm lying in the dust  
It's all that's left of us  
I'm not as strong as you  
And I won't make it through  
And you say I will survive  
Then you go on with your life  
And I wish I was the same  
But I can't stop the pain  
'Cause boy I live for you

When you closed the door  
My body hit the floor  
'Cause you were my cage  
And now I'm nothing  
Well I have much regret but  
If I scream and beg  
Would you stay, would you stay

Now I'm lying in the dust  
It's all that's left of us  
I'm not as strong as you  
And I won't make it through  
And you say I will survive  
Then you go on with your life  
And I wish I was the same  
But I can't stop the pain  
'Cause boy I live for you

I will never hide it  
I will always fight for love  
I have to rectify it  
'Cause I will never give you up

And now with every breath I fight my loneliness  
Well it stays, stays, stays

I'm lying in the dust  
It's all that's left of us  
I'm not as strong as you  
And I won't make it through  
And you say I will survive  
Then you go on with your life  
And I wish I was the same  
But I can't stop this pain  
'Cause boy I live for you

Boy I live for you  
Boy I live for you
