

# Nothing Without You

Sheppard

I can't lie  
I've lived a thousand lives  
And I've kicked down every door  
There's not an ocean unexplored

But I still lose in a gold-plated, empty room  
I can say I have it all  
To a million friends who'll never call

But loneliness takes its toll

I could be anything I wanna be  
Rule this world, take over the galaxy  
Conquer every castle in my view  
But I'm nothing without you

Life could go on for infinity  
All the golden riches it's given me  
I could bet it all and never lose  
But I'm nothing without you

I wake up sipping from an endless cup  
And though I have too much to pour  
It still feels like I need more and more  
Here I lie  
Staring at an empty sky  
'Cause every star I've ever known  
Don't shine the same when I'm alone

Gravity takes a hold

I could be anything I wanna be  
Rule this world, take over the galaxy  
Conquer every castle in my view  
But I'm nothing without you

Life could go on for infinity  
All the golden riches it's given me  
I could bet it all and never lose  
But I'm nothing without you

No-no-nothing without you  
No-no-nothing without you  
No-no-nothing without you

Oh super yachts and private planes  
An island half the world away  
It's everything and anything but you

Damn, if I only knew

That I could be anything I wanna be  
Rule this world, take over the galaxy  
Conquer every castle in my view  
But I'm nothing without you

Life could go on for infinity

All the golden riches it's given me  
I could bet it all and never lose  
But I'm nothing without you

No-no-nothing without you  
No-no-nothing without you  
No-no-nothing without you  
I'm nothing without you

No-no-nothing without you  
No-no-nothing without you  
No-no-nothing without you  
I'm nothing without you
