

Running Straight To You

Sheppard

You and I, we've been staring at the same night sky
Waking to the same sunrise, but I'm so far from you
You know life, is good at getting in the way sometimes
I don't know if there's a reason why, I just know I love ya
Are you close enough to hear me say
That where you are is not too far away?

Hey! I'd ride a tidal wave
I'd run uphill both ways
And brave the lightning and the thunder
So I say hey! I'd wait ten thousand days
Whatever it takes to keep us both from going under
Of all the winding roads that I could choose
I'm running straight to you

It's alright, sometimes the price is high
Gotta spend a bit of precious time, but I'm so proud of ya
And excited, living like the best is yet to come
Cause I know it won't be long 'til we're reunited

Hey! I'd ride a tidal wave
I'd run uphill both ways
And brave the lightning and the thunder
So I say hey! I'd wait ten thousand days
Whatever it takes to keep us both from going under
Of all the winding roads that I could choose
I'm running straight to you

Running, running
I'll keep on running running
I'll keep on running running
Running straight to you (straight to you)
I'll keep on running running I'll keep on running running
I'll keep on running running
Running straight to you

Hey! I'd ride a tidal wave
I'd run uphill both ways
And brave the lightning and the thunder
So I say hey! I'd wait ten thousand days
Whatever it takes to keep us both from going under
Of all the winding roads that I could choose
I'm running straight to you

Of all the winding roads that I could choose
There's only one that I'd be scared to lose
I'm running straight to you
