

Shine My Way

Sheppard

Everybody wants a little love in their lives
And I think it's about that time
Everybody's looking for a spark in their eye
And I think I just found mine

I'm gonna sing up to the heavens how I feel today
Lord please don't take my lovely lady away
Finally the sun is shining more
These raise my way

Said I'm feeling the sunshine down on my skin
But I can that the warmth is coming from within
Sending the good vibes straight from her heart
Cause I know that this woman is a new start

From a pissed-one, passed out, blame nobody
I'm just happy I found my honey
Finally the sun is shining more
These raise my way

Now he can shine, oh, shine, oh, shine my way
Cause for the first time in my life
I'm gonna be okay
And although times make me cry
To the sad low that said goodbye
There's nothing else to hate 'bout the good sky
Oh no there's nothing else to hate...

Everybody's got the love and hunger to feed
Now I'm all get-up to start sowing a seed
We're keeping my heart but it's about to be free
I can tell you right now that I'm holding the key

You know, I was ready to die but you
Gave me reason to fly, it's true
Finally the sun is shining more
These raise my way

Now he can shine, oh, shine, oh, shine my way
Cause for the first time in my life
I'm gonna be okay
And although times made me cry
To the sad low that said goodbye
There's nothing else to hate 'bout the good sky
Oh no there's nothing else to hate...

Ain't nothing but the good sky
Ain't nothing but the good sky
Ain't nothing but the good sky

Shine, oh, shine, oh, shine my way
Cause for the first time in my life
I'm gonna be okay
And although times made me cry
To the sad low that said goodbye
There's nothing else to hate 'bout the good sky

Shine, oh, shine, oh, shine my way
Cause for the first time in my life
I'm gonna be okay
And although times made me cry
To the sad low that said goodbye
There's nothing else to hate 'bout the good sky

And although times made me cry
To the sad low that said goodbye
There's nothing else to hate 'bout the good sky
