

Sunshine

Sheppard

The beat of your heart
The sound of your soul
I wanna see your colours glow
Jump in the deep end, lose control
To see how far it goes

Hold on tonight, hold on tonight
You know that life could be amazing
Look at the roses in the pavement
Hold on tonight, hold on tonight
I know you feel it, come feel a little sunshine

Oh my my, never knew we'd get this high
I know you feel it, like I can feel it
All my life I've been lost in paradise

So come and feel it
Come feel a little sunshine
So come and feel it
Come feel a little sunshine
So come and feel it
Come feel a little sunshine

See the horizon, put on a show
As the sun keeps rising slow
We keep on dancing, feeling the flow
Like there's no-no-no tomorrow
Hold on tonight, hold on tonight

I know you feel it, come feel a little sunshine
Oh my my, never knew we'd get this high
I know you feel it, like I can feel it
All my life I've been lost in paradise

So come and feel it
Come feel a little sunshine
So come and feel it
Come feel a little sunshine
So come and feel it

Come feel a little sunshine
I'll light you up in every way
With a lifetime of warm and sunny days oh
So come and feel it
Come feel a little sunshine

Surfing on a summer dream
Lost in a sun-kissed fantasy
So come and feel it
Come feel a little sunshine

Oh my my, never knew we'd get this high
All my life I've been lost in paradise
Oh my my, never knew we'd get this high
I know you feel it, like I can feel it

All my life I've been lost in paradise

So come and feel it
Come feel a little sunshine
So come and feel it
Come feel a little sunshine
So come and feel it
Come feel a little sunshine
