

# Thank You

Sheppard

When I couldn't fall asleep  
You'd read to me  
And lay right there at my side  
If I grazed a knee  
From climbing trees  
You'd comfort me as I cried

Made my lunches every day  
And though you were running late  
You would walk me all the way to school  
Building castles out of sand  
Way too young to understand  
That life was easy all because of you

So I wanna thank you  
For making me half as good as you  
And as I get older  
I understand what I put you through  
I misbehaved, I made mistakes  
But you never turned away  
So I wanna thank you  
For all that you do  
For all that you do

As a teen, I lied  
Ignored advice  
Pretended I didn't care  
I should let you know  
It was all a show  
I loved you more than I shared

I put your patience to the test  
But you always did your best  
You were tough but you were never cruel  
And now that I'm a man  
I'm proud of who I am  
And I know it's all because of you

So I wanna thank you  
For making me half as good as you  
And as I get older  
I understand what I put you through  
I misbehaved, I made mistakes  
But you never turned away  
So I wanna thank you  
For all that you do

You make me better  
I would be nothing without you  
So this is my letter  
Cause I wanna show my gratitude

No I've never been afraid in the warmth of your embrace  
And I'll keep that feeling all my life  
I have always been your son, you will always be my mum  
From the cradle till the day I die

So I wanna thank you  
For making me half as good as you  
And as I get older  
I understand what I put you through  
I misbehaved, I made mistakes  
But you never turned away  
So I wanna thank you  
For all that you do  
Yeah I wanna thank you  
For all that you do  
For all that you do
