

# The Best Is Yet To Come

Sheppard

Take me to a different place  
Where love is not illusion based  
And fear is just a word they can define

Where I've heard hope and happiness  
Is found in every beating chest  
Cos all those hearts are more or less inclined

To give it all away without a fear of what's to break  
The answer that we never seem to find  
The hand we always take disintegrate without a trace  
And we're the ones they've always left behind

[Chorus:]

Help me understand the best is yet to come  
Take me by the hand before I come undone  
Cos all this emptiness has left me feeling numb  
But it's darkest right before the sun

Now I've let mullings pass me by  
But I refuse to leave my life  
To fall between the cracks of my control

I was unspoken 'til I woke up in  
All the chains that were imprisoning my soul

[Chorus]

And if you try to swim the other way  
Then they'll never let you see another day

But I've been there before  
I've been a soldier in this war  
If you take it in your stride  
You might just see the other side

Just breath, breath  
Because everything you see  
Is just a stone throw away

[Chorus]
