

Beautiful Dream

Sheryl Crow

We could build a house
We could build a wall
We could move a mountain
And we could watch it fall

Wouldn't it be different
If everyone could see
That everything is sacred
And everyone is free

Oh, what a beautiful dream
Oh, what a beautiful dream

And everyone is happy
Dancing in the streets
Laughing with each other
In total harmony

And no one's going hungry
When every cry is heard
We will know the meaning
Of heaven here on earth

Oh, what a beautiful dream
Oh, what a beautiful dream

Everybody's got somebody they need
As long as we're together
Oh, what a beautiful dream

Just a little love
Just a little peace
Every boy and girl
And every family

See the future coming
Leave the past behind
Cus' what you give away
Comes back in its own sweet time

Oh, what a beautiful dream
Oh, what a beautiful dream
Everybody's got somebody they need
As long as we're together
Oh, what a beautiful dream
