

# Dancing With Your Shadow

Sheryl Crow

Never be afraid  
I'll be there  
There are angels in our places  
Look around

The human heart can notice things  
Others miss  
Even strangers notice visions  
When they're down

Don't worry  
I'll be dancing with your shadow  
I'll see you in every way  
All of me never leaves all of you

And as you wander  
Through the sky  
High in stardust  
Right behind you  
I will find you  
Every time

Our love means  
I'll be dancing with your shadow  
I'll see you in every way  
All of me never leaves all of you

Speaking without words  
In your way  
Hope we fly to  
Say goodbye to  
In our lights

Don't worry  
Never worry  
'Cause all of me never leaves you
