

## Forever

Sheryl Crow

Lay your head down, don't you worry tonight  
Can't fix the world no matter how you try  
Give it some time, you will find  
Everything is alright

There's no such thing as forever  
But you and me, we've got today  
And every moment we're together, I know there is a heaven  
'Cause you make me feel that way

When I get down, you're the one that I call  
You pick me up every time that I fall  
And when you laugh, nothing else matters to me at all

There's no such thing as forever  
But you and me, we've got today  
And every moment we're together, I know there is a heaven  
'Cause you make me feel that way

Garbage out in space, garbage in LA  
Baby, what a waste  
Everybody's mad, everybody's sad  
See it in their face  
I gotta have the latest  
Gotta have the best, the most  
If you wanna be happy  
Light a match and watch it all go up in smoke

There's no such thing as forever  
If we get stuck in yesterday  
And every moment we're together, I know there is a heaven  
'Cause you make me feel that way

There's no such thing as forever, no such thing  
But you and me, we've got today  
And every moment we're together, I know there is a heaven  
'Cause you make me feel that way
