

Threepeat

Sheryl Sheinafia

I know you got an ego to feed
But is it more than what's up between you and me
For you to understand what it means to love
Do you really have to break a piece of me
You know we were on a roll, on a roll
But smooth sailing turned to rocky roads
We were so close to reaching third base
But I deserve another clean slate

I don't wanna have to give love
If I have to give up on me
I think it is time to speak up
If we're gonna break up in repeat
In repeat, in repeat
Hey, look
We already broke up 3 times that's a
Threepeat, a threepeat, a threefuckinpeat

I think our lease is overdue
Baby, it is time to move
With you I'm two steps back, when can we move forward
Baby, it's a sign we can't refuse

I think I'm over it
I'm so complete
Without you I am everything I'll ever need
You are so full of yourself, I can't compete
So get the fuck off my track and take a seat

I don't wanna have to give love
If I have to give up on me
I think it is time to speak up
If were gonna break up, in repeat
In repeat, in repeat
We already broke up 3 times that's a
Threepeat, a threepeat, a three-fuckin-peat
