

Feel Your Body

Shift K3Y

Love, just to love ya
Love, just to love ya
Love, just to love ya
Feel your body
Love, just to love ya
Love, just to love ya
Love, just to love ya

Do you remember, baby
When we used to be together?
Nobody else but you, uh
Knowing no one would feel the same

But at night I'd try to find the one
That would make me feel like you do
'Cause every time you come across my mind
I want it all the time, I, I still

Feel your body on my body
All night darling, ooh
Make me wanna come on over
Just to love ya, love you right
Yeah, I still feel your body on my body
All night darling, ooh
Make me wanna come on over
Just to love ya, love you right

Do you remember?
Love, just to love ya
Love, just to love ya
Love, just to love ya
Feel your body
Love, just to love ya
Love, just to love ya
Love, just to love ya

Do you remember, baby
When we used to hold each other?
No other lover but you, uh
Knowing no one would feel the same

But at night I'd try to find the one
That would make me feel like you do
'Cause every time you come across my mind
I want it all the time, I, I still

Feel your body on my body
All night darling, ooh
Make me wanna come on over
Just to love ya, love you right
Yeah, I still feel your body on my body
All night darling, ooh
Make me wanna come on over
Just to love ya, love you right

Do you remember?
Love, just to love ya

Love, just to love ya
Love, just to love ya
Feel your body
Love, just to love ya
Love, just to love ya
Love, just to love ya
Do you remember?
