

Paranoid

Shift K3Y

I ain't slept in days I think my body hates me
Smoke another cigarette to kill the time
It's hard to slow your breath up when your heart is racing
Harder yet to keep up when it's in your mind

If I fight back they gon' bite back
Imma lose it, yeah
I don't like that, want my life back
I didn't choose this

When they see me, think they know me, it's a front
Think I got this, am I wrong in giving up?

Maybe I'm a little bit paranoid
Of this world I'm living in
I guess I'm just, a little bit hesitant ohh
This is it, it's serious
It's getting rough, in this world I'm living in
I guess I'm just, a little bit paranoid ohh

I don't trust a soul it's like I'm going crazy
Lately I've been towing on the line
Voices in my head they just been sitting waiting
Just so they can hit me when I'm blind

If I fight back they gon' bite back
Imma lose it, yeah
I don't like that, want my life back
I didn't choose this, no no no

Maybe I'm a little bit paranoid
Of this world I'm living in
I guess I'm just, a little bit hesitant ohh
This is it, it's serious
It's getting rough, in this world I'm living in
I guess I'm just, a little bit paranoid ohh

Chains chasing change they drag my bones
Blind walking backwards down this road
I ain't got nowhere left to go
Cause I'm paranoid tryin' to keep control

Maybe I'm a little paranoid of this world I'm living in
Guess I'm just a little bit hesitant
This is it, It's serious
It's getting rough, in this world I'm living in
I guess I'm just, a little bit paranoid
