

Promises

Shift K3Y

Promises, promises
Promises, promises

Breathe in then breathe you out again
Strangers, we're falling into friends
If we find our way back
I hope it never ends

Cross my heart and hope to die
These promises I've made tonight
Are for you
They're only for you
I've been waiting all my life
To make these promises tonight
For you
They're only for you

All these
Promises, promises
Promises, promises
Promises, promises
Oh, I keep all my promises
Promises, promises
Promises, promises
Promises, promises
Oh, I keep all my promises

I want you to know, I'm not letting go
I'm not giving up
I'll be good as gold, for you I'll follow
Give you all my love

Cross my heart and hope to die
These promises I've made tonight
Are for you
They're only for you
I've been waiting all my life
To make these promises tonight
For you
They're only for you
All these

All these
Promises, promises
Promises, promises
Promises, promises
Oh, I keep all my promises
Promises, promises
Promises, promises
Promises, promises
Oh, I keep all my promises
