

Runaway

Shift K3Y

Baby, let's run away
Baby, let's run away
Run away, run away

Let's get away, uh
Let me take you all the way
No, no, there's no need to rush, no
I'm trying to explain
Want you to realize
With you next to me, ecstasy
Slowly getting hard to breathe
Hard to breathe
(Hard to breathe, breathe)

Yeah, I'm still the one, still the one
Say the word and we'll be gone

Baby, we should run away tonight
Away tonight
Run away tonight
Baby, you should let me change your life
Just you and I
In the dance tonight
Out of control
We should run away tonight
Run away tonight
Run away tonight
Let's dance tonight
Out of control
We should run a-

Let's get away, uh
Yeah, I know you feel the same
No, don't wanna waste your time, no
Girl, I'm just trying to explain
Want you to realize

When I'm next to you, I can lose
No, I can never refuse
Yeah, I'm still the one, still the one
Say the word and we'll be gone

Baby, we should run away tonight
Away tonight
Run away tonight
Baby, you should let me change your life
Just you and I
In the dance tonight
Out of control
We should run away tonight
Run away tonight
Run away
Run away tonight
Out of control
We should run away tonight

Baby, let's run away, run away

Baby, let's run away
Run away tonight

Baby, let's run away, run away
Baby, let's run away
Run away
