

# Cold Heart

Shihad

And it's not about the way you're living  
The future's ours and the past - just let it go  
If you're not happy with the clues that you're given  
If you're not happy you should say so

Let it be tonight  
Let it be tonight  
Let it be tonight  
Let it be tonight

And I don't have to care  
Suddenly it's where you are  
What happens over there  
It's only for this cold heart

Getting high was a mistake  
I know it hurt to make you feel something  
But now you're gone, oh for Pete's sake  
I wish I had the time you waste

Let it be tonight  
Let it be tonight  
Let it be tonight  
Let it be tonight

And I don't have to care  
Suddenly it's where you are  
What happens over there  
It's only from this heart  
I thought it would've shown  
Suddenly it's where you are  
But you already know  
It's only for this cold heart

It's a constant  
Of whatever  
Gotta wake up and pull it together  
Have your mother kiss it better  
It hurts 'cos it don't even matter  
Yeah

Let it be tonight  
Let it be tonight  
Let it be tonight  
Let it be tonight

And I don't have to care  
Suddenly it's where you are  
What happens over there  
It's only from this heart  
I thought it would've shown  
Suddenly it's where you are  
But you already know  
It's only for this cold heart
