

## Down Dance

Shihad

Well I've never seen the fear disappear  
From the eyes of men  
If there was peace  
Will it ever come again  
I've never seen such apathy  
As I have seen it now  
But if we don't stop soon  
We'll never know just how

The watcher still can't see  
His own reality  
The faces never show  
But I know they know

Just what they're not fighting for  
They know

It can't exist if it can't be seen  
An attitude not so rare  
But if it don't change  
It'll leave our world bare  
Bare of fundamental life  
We're starting to devolve  
But if we just cared  
Our problems could be solved

We're at the Down Dance  
Our descent goes on and on and on  
We got one last chance  
To start a new way of life

Improvising the same steps  
You dance through life like a parody  
Caring for nothing and no-one but you  
But what if the earth were to crumble  
Now wouldn't that be a tragedy  
Why can't you understand  
That if it goes, you'll go too

Don't give up on this world  
The answer lies within your heart  
The line on which it's been hurled  
Will slowly tear your life apart  
Deviate  
Deviate it's course

Avoid the tragedy
