

Loves Long Shadow

Shihad

We all follow
Love's long shadow
What will I do now?
How can I live without?
I'll never love again
Until I reach the end

We'll be together
Together again

She holds his hand
Says "You're my best friend"
But when she can't pretend
She starts to grow again
The dead are alive in us
Here in our Universe

And we'll be together
Together again
