

Morons

Shihad

Some movies were made for morons
What do they see
An ass-kicking straight white male and
Have a nice day

But don't worry kids it's the norm
Keep gobbling up that popcorn
Turns flesh into stone
But now maybe I got it wrong
And I could've had all along
I'm telling you it's just wrong
That you would come back
With your head in the clouds
It makes the world go round
Try coming down

Singing a verse with feeling
Give us a break
You are about to see
How much we can take

Is there an alternative to
The so-called alternative view
Talking how this [?] in a moderate pop rock song
That says how they just don't belong
I'm telling you it's just wrong
That you would come back
With your head in the clouds
It makes the world go round
Try coming down
Try coming
Try coming down

You wear me in, wear me out

But don't worry kids it's the norm
Keep gobbling up that popcorn
Some movies were made for morons
What do they see
Give us a break
