

Be The Same

Shinedown

You know it starts with a look
And then it ends with a lie
I should plant my seeds deep
So then my roots won't die

Do you wish I was more like you
Self centered with no point of view

I need to give my self pride again
Take time to mend my feelings
Cause they never change, they always stay the same
I just can't blame it on my pride again
The time I spent believing
And I'll never change, I'll always be the same

Sometimes it seems like I'm closer
To maybe feeling alive
Some days I wish it was over
And that's when I stare in your eyes

Do you wish I was more like you
Self centered with no point of view

I need to give myself pride again
Take time to mend my feelings
Cause they never change, they always stay the same
I just can't blame it on my pride again
The time I spent believing
And I'll never change, I'll always be the same

In this world
Its not so black and white
But it is made out to be
It's fateful
But the design is to deceive
And know how they deceive
And we have our rights and wrongs
So don't pass judgment on me
Its your list but its just as long
If you dig deep yourself

I need to give myself pride again
Take time to mend my feelings
Cause they never change, they always stay the same
I just can't blame it on my pride again
The time I spent believing
And I'll never change, I'll always be the same
And I'll never change, I'll always be the same

Can you see me
Can you feel me
I know you need me
Just believe me
Can you see me
Can you feel me
I know you need me
Just believe me
