Like we're under water  
It's like we are under water (Under water)  
00 00 Yeah yeah yeah

The moment I got to find the uncharted territory  
The place that seems to have

Awoken my senses that were buried  
Stronger than gravity and very deeply  
It pulls me all the way to the end where I can't escape

It's like we're underwater  
It keeps getting deeper  
I'll embrace you as you rush over to me  
Take my breath away

My love goes deep deep deep  
Your ocean got deeper  
The emotion got stronger  
My love goes deep deep  
I entrust my entire self in the waves  
I go towards you, yeah yeah yeah

Hide it more, secretly all of it  
Go wherever, I'm coming for you  
I try and withstand my heart crashing like waves  
The rougher it gets, I'm falling for you  
Dizzy and distant falling  
I'll dive into you

I thought you were the shining star over there  
I kept my head up, but you're under the ocean  
Always unpredictable Her you and I, I miss  
Even though I can't trust it, I go towards Atlantis

We're under the water  
A kiss with the ungraspable deep ocean  
It sweeps me away  
Uh huh uh huh

My love goes deep deep deep  
Your ocean got deeper  
The Emotion got stronger  
My love goes deep deep  
I entrust my entire self in the waves  
I go toward you, Yeah yeah yeah

When I met you in front of me I finally found  
The feeling that I didn't know existed  
We're under the water, I get submerged in you  
Take my breath away

My love goes deep deep deep  
Your ocean got deeper  
The Emotion got stronger  
My love goes deep deep  
I entrust my entire self in the waves  
I go towards you, Yeah yeah yeah

It's like we are under water  
Like we're under water  
It's like we are under water  
I go towards you, Yeah yeah yeah
