

# Dynamite

SHINee

Your puffed up lipstick, your moody face, your icy eyes  
Your smile that's thicker than darkness  
You're breathtaking, making me go crazy

You might disappear if I touch you  
You might fly away if I call out to you  
Seems like you'll turn off but not  
Seems like you're teasing me, standing on my head, laughing at me

Dynamite - your cold eyes  
I discovered the reason to live  
With your fingertips like the fireworks  
Come to me before it's too late  
The countdown festival has started  
You can expect good things, watch over me  
Come closer into my dream  
The heat rises, feel it

Our eyes have stopped, can't hide that fluttering feeling on my face  
Like filling in the blank of a riddle, little by little, I'll fill you in

How about taking off that mask? Be honest, what do you think of me?  
Will I explode or not? Dangerously trembling, I hold in my breath and hide it

Dynamite - I am all over the place  
I can't hide my burning heart anymore  
I have sufficiently (hey you) fallen for you  
I melt you with my light  
The countdown is on my side in the end  
I put my everything into it and send it to you  
I will run to you and hug you  
And go above to the sky - feel it

Attention! Throw away all of the misunderstandings till now without promise  
Pay attention to only me from now on, forget everything else  
Your head will spin and you will pay attention even with confusing thoughts  
Understand me? I'm different from other guys

It's you!

Don't shed tears any longer  
I can't change anything in this world with you  
(Hold tight to me)  
Become my shining star tonight tonight

Dynamite - I am all over the place  
I can't hide my burning heart anymore  
I have sufficiently (hey you) fallen for you  
I melt you with my light  
The countdown is on my side in the end  
I put my everything into it and send it to you  
I will run to you and hug you  
And go above to the sky - feel it

Come and get me  
Come and get me

Come and get me
