

Nothing to Lose

SHINee

My heart is facing forward
But does it seem to be torn up? (Help me! Help me!)
In your head you're turning back
As if you can't advance? (Get out! Get out!)

If you don't have true desire
You won't have true satisfaction
So throw off your old shell now

Nothing To Lose
Be reborn. It's your fate to lose what's broken
Nothing To Lose
No matter how much you break in your heart, you can't be destroyed
Just that is Real, beyond that is Fake
This self is Real, I've Got Nothing To Lose

The one who will have the last laugh in this world
Does anyone know that? (Tell me! Tell me!)
It's not like even those who are smart are strong
But they keep on changing (Get up! Get up!)

If you don't have true courage
You won't have true evolution
Break your weak shell now

Nothing To Lose
Be reborn. A sad fate for those who lie
Nothing To Lose
No matter how much you deceive in your heart, you can't deceive yourself
Just that is Real, beyond that is Fake
This self is Real, I've Got Nothing To Lose

Ha? Without a single thing
Humans are born here
We can't stop just bearing unseen luggage
Panting, What Are You Doing?
Abandon it already and keep Moving
At the end of the dream you don't wake from there's a shining future
(Hey! A shining future, Yeah)

Nothing To Lose
Be reborn. It's your fate to lose what's broken
Nothing To lose (Nothing To lose)
No matter how much you break in your heart, you can't be destroyed
Just that is Real (Real) Beyond that is Fake (Uh)
This self is Real, I've Got Nothing To Lose
Just that is Real, beyond that is Fake (So I'm Burning Up!)
This self is Real, I've Got Nothing To Lose
