

Undercover

SHINee

I'm paddling my feet as busily underneath the surface with a calm expression on my face,
You don't know
Before the curtains rise, I'm always busy but when
I'm standing before you I'm Acting cool

I can't let you know the things that are secretly happening now
, now is not the time
I wait for the right moment, so that when you've realized it it
's too late

Like a black shadow is absorbed into the night,
The night
I dig deep beyond the consciousness,
Inside of you I'm Undercover

There's no need for big actions in this Scene,
If you felt something then it's a Kind of love
Small whispers, sometimes that's more powerful,
I want more

I can't let you know the things that are secretly happening now
, now is not the time
You must want it so much that you won't be able to handle it at
the right moment

Like a black shadow is absorbed into the night, the night
I dig deep beyond the consciousness, inside of you I'm Undercover

In that mirror, you're like me before you know it
That harmony is our song
I'm still Undercover but you'll find out soon

I can't let you know the things that are secretly happening now
, now is not the time
I wait for the right moment, so that when you've realized it it
's too late

I flow and I permeate into you, into you
I dig into the empty parts of you, Undercover in your heart

Like a black shadow is absorbed into the night, the night
I dig deep beyond the consciousness, inside of you I'm Undercover

Undercover can you see my stranger self?
