

# Prayer Changes Things

Shirley Caesar

Prayer changes things  
Prayer really changes things  
Prayer changes things  
Said I know that I know it does, yes it does

In the middle of the night when I can't fall asleep  
Wondering if there're angels really watching over me  
When your heart feels like it's breaking because of what you've been going through  
Then there is something I wanna recommend to you

Get on your knees and say a prayer  
Oh, go to God and leave it there  
Because He hears you when you cry  
He'll wipe every tear from your eye

Oh, prayer  
Prayer changes things  
I know prayer changes things  
I know that I know it does  
Let it change things in your life  
When it feels like hope is gone  
And you can't keep holding on  
Prayer changes things

Now tell me, what's the use of crying  
What's the point of your despair  
Cause all of life's broken pieces  
God is the one who really cares  
And when your load gets too heavy  
Oh, go behind and close the doors  
And lay it all before the master  
And you'll come out lighter than before

If you ask and believe in that name you shall receive  
Just call Jesus if you would  
You're going find Him working it out for your good

Prayer changes things  
It really changes things  
I know prayer changes things  
I dare you to try Him  
It will change things  
When it feels like hope is gone, it's all gone  
And you can't keep holding on, don't give up on God  
Prayer changes things

When you can't see the light of day  
Always remember, He's never too far away  
He's right there  
Even when you feel all hope is gone  
Be strong, keep holding on

Prayer changes things  
Prayer, yes it does, changes things  
I dare you to call Him right now, he's never too busy  
He changes things

Call him, call him, He's never too busy  
Prayer in the morning  
Pray in the evening  
It changes things  
It changes things  
I know it does  
Yes, it does  
It changes things  
Listen to us, change your ways, change your walk  
Prayer will do it  
Yes, it does  
When you're going through, it'll change the thing  
When you're sick in the body  
Prayer changes things
