

You're All I Need

Shirley Caesar

You are all I need, you are all I need
You are all I need during the times when they get tough
You are all I need when this life of mine gets rough
You are all I need, my hope, my joy, my all
All I need to keep me standing tall

You are all I need, Jesus, you're everything I need
Now, Lord, I need to rely upon your love
Yes I know you have more than enough
Your love light leads me home
Your light shines bright and clear
Now I really know, you're always near

You are all I need, Jesus, you're everything I need
When my way gets dark sometimes
But I found in you everything that I need

Now, Lord, I need to rely upon your love
Yes I really know you have more than enough
Your love light leads me home
Your light shines bright and clear
Now I really know, you are always near

You're all, You are all I need, Jesus
Jesus, you're everything I need
In the midnight hour you're everything I need
When my way gets dark sometimes
I find out, you're everything I need
You told me you'd be there, you told you'd lift my words
You're all I need
In the midnight hour you're all I need
When everybody is fast asleep
I get out of my bed and I go down on my knees
You told you'd lift my words, you told you'd lift me up
You told me you'd be there
Jesus, Jesus, Jesus, you are all I need
I'm gonna wait on the Lord, wait on the Lord
You're all I need, you're everything I need

Somebody gets sick, couldn't get well
You came in my room and you laid your hand on me
You laid your hand on me, when the medicine wouldn't work
You healed my body, you raised me up
When I could not see, the doctors gave me up
You opened up my eyes, you healed my body

You're all I need, Jesus, you're everything I need
I can call you whenever I'm needing you
I can call you in the midnight hour
I can call you in the morning
I can call you in the evening
