

Love Machine

Shocking Blue

Grandma told the doctor's son
Boy, without love you can't go on
It makes the whole world turn around
The love machine
The love machine makes a woman feel bound

Love started to weep and dream
Day overcame the first grief
And now just in time to learn
The love machine
The love machine makes the world torn around

Grandma told the doctor's son
Boy, without love you can't go on
It makes the whole world turn around
The love machine
The love machine makes a woman feel bound

Love started to weep and dream
Day overcame the first grief
And now just in time to learn
The love machine
The love machine makes the world torn around
Makes the world torn around
The love machine makes the world torn around
Makes the world torn around
