

This America

Shocking Blue

It's my land and in days to come
Follow me and we can have some.
Beautiful flowers I give to you,
If I'll stay then I'll be true.

Lovely lady, you call me,
Two together we will be free.
Beautiful presents I shall bring,
All together we can sing.

This America,
I love how you love us.
This America,
I love how you need us.
This America,
I love how you want us to be free.
Come on and follow me.

People ask me to come and see
All the things they can offer to me.
I turn them down, 'cause I like your style.
I'll stick around here for a while.

This America,
I love how you love us.
This America,
I love how you need us.
This America,
I love how you want us to be free.

This America,
I love how you love us.
This America,
I love how you need us.
This America,
I love how you want us to be free.
Come on and follow me,
Come on and follow me,
Come on and follow me,
Come on and follow me,
Come on and follow me,
Come on and follow me,
Come on and follow me,
Come on and follow me.
