

# God Bless Alabama

Shooter Jennings

You made together forever  
In a little way today  
This one is a blessed one  
Don't you wish they could all be that way  
There's a diamond in this city  
Cuts through alleys and gray skies  
Even through days of darkness  
There's always a ray of light

God Bless Alabama  
The wild wandering rose  
Shes got some angels  
Watching out down the road

Keep it simple when life gets crazy  
Sometimes it's crazy all the time  
Good things aren't a dime a dozen  
When you find a good thing, you gotta treat it right  
Were all hopeful dreamers  
And I bet you'll be one too  
There are many roads to follow  
The only safe one is the truth

God Bless Alabama  
The wild wandering rose  
Shes got some angels  
Watching out down the road
