

Armageddon

Short Stack

Let's make this night last forever
Armageddon club
Like it's the end of the world
And then we'll go down together
Write our names in blood
You'll be the death of me, girl

You kiss me
I'm not sorry
You're no good for me and I can't pretend
I don't hate this and pray this will end
But then we do it again

If it's justified
We could cut these ties
I'm in over my head but it tastes so sweet
If we say goodbye
For the thousandth time
I'm not over you yet, yeah, we're in too deep
Nah nah nah nah, nah nah nah nah
I'm not over you yet, yeah, we're in too deep

I made friends with all my demons
Kamikaze cuts
Just watch me self-destruct
And tell him I'm getting even
Fire in my lungs
And I ain't giving you up

Tear into me
I'm sorry
You're so good for me and I can't pretend
I don't hate you and pray this will end
But then we do it again

If it's justified
We could cut these ties
I'm in over my head but it tastes so sweet
If we say goodbye
For the thousandth time
I'm not over you yet, yeah, we're in too deep
Nah nah nah nah, nah nah nah nah
I'm not over you yet, yeah, we're in too deep
Nah nah nah nah, nah nah nah nah
I'm not over you yet, yeah, we're in too deep

I'm not over you yet, yeah, I'm in too deep

If it's justified
We could cut these ties
I'm in over my head but it tastes so sweet
If we say goodbye
For the thousandth time
I'm not over you yet, yeah, we're in too deep
Every time I die
Bring me back to life tonight
And diving underneath

If it's justified
We could cut these ties
I'm not over you yet, yeah, we're in too deep
Nah nah nah nah, nah nah nah nah
I'm not over you yet, yeah, we're in too deep
Nah nah nah nah, nah nah nah nah (If it's justified, we could cut these ties
)
I'm not over you yet, yeah, we're in too deep
