

# Before Angels Fall

## Short Stack

I'm looking for the one  
It seemed like such an easy plan (easy plan)  
I found out you're far from but I still wanna be your  
man (if I can)

Would you think I'd have a chance  
From the start  
Every time you take my hand  
You take my heart

And I think I'm dying because you said  
"Take my breath away"

CHOROUS:

I'll lay you down tonight  
Steal my heart away once more  
This pose will beat our "fire"  
One kiss before angels fall  
And now I've fallen too far  
One kiss before angels fall

I knew this had to be 'cos I know that you want me for  
me  
You think I've got rad hair  
And nothing can compare to the way I feel (if I can)

Would you think I'd have a chance  
From the start  
Every time you take my hand  
You take my heart  
And I think I'm dying because you said  
"Take my breath away"

CHOROUS:

I'll lay you down tonight  
Steal my heart away once more  
This pose will beat our "fire"  
One kiss before angels fall  
I'll lay you down tonight  
Steal my heart away once more  
This rose will be our fire  
One kiss before angels fall  
And now I've fallen too far  
One kiss before angels fall  
And now I've fallen too far  
One kiss before angels fall down

I'll lay you down tonight  
Steal my heart away once more  
This pose will beat our "fire"  
One kiss before angels fall

CHOROUS:

I'll lay you down tonight

Steal my heart away once more  
This pose will beat our "fire"  
One kiss before angels fall  
I'll lay you down tonight (before angels fall)  
I'll lay you down tonight (before angels fall)  
I'll lay you down tonight (before angels fall)  
I'll lay you down tonight (before angels fall)  
Yeah
