

Dancing with the Devil

Short Stack

Piece myself together, just for you to drag me down
Love me like the weather, so burn me from the inside out
Fight me on the table now I can't think straight
Hate all of my favourite songs they just remind me of you
So pretend you didn't wanna get caught

Then watch me fuck this up

Tell all my friends we're done
This is my hate you song
I got my finger on the trigger of a loaded gun
And when you scream my name
We're going down in flames
You'll never hear me say
You ain't dancing with the devil

You're so fucking special
I'm keeping you all to myself
You're dancing with the devil
And every second gives you hell

Fight me in the backseat now
I can't think straight
Hate all of my favourite songs
They just remind me of you
So pretend you didn't wanna get caught

And I'm still fucked up

Tell all my friends we're done
This is my hate you song
I got my finger on the trigger of a loaded gun
And when you scream my name
We're going down in flames
You'll never hear me say
You ain't dancing with the devil

You met her out on the west coast
Said don't you love me I'll hold just hold you down
And I protect what I want most
So if you love me then just let me drown
Yeah if you love me just let me drown

Tell all my friends we're done
This is my hate you song
I got my finger on the trigger of a loaded gun
And when you scream my name
We're going down in flames
You'll never hear me say
You ain't dancing with the devil

Tell all my friends we're done
This is my hate you song
I got my finger on the trigger of a loaded gun
