

Die Young Stay Pretty

Short Stack

Please gather around brothers and sisters
Please lend me your hearts and your tongues
Because I taste so nice
Please take my advice
Die young

Well they said I could have done better
And I was never a good son
But round came my time
And fuck oath I shined
I shone

We will fall in love tonight
We are always outnumbered but never out gunned
I'm hoping the ocean is what we'll become
The choir boys chanted a riot tonight
And the uptown girls sang along
Together they sing with their devilish grins
Die young, stay pretty

Please gather around brothers and sisters
Please lend me your hearts and your tongues

We will fall in love tonight
We are always outnumbered but never out gunned
I'm hoping the ocean is what we'll become
The choir boys chanted a riot tonight
And the uptown girls sang along
Together they sing with their devilish grins
Die young, stay pretty
