Lights Out

Short Stack

Why you acting so high
Like you got heaven beneath you?
We both got blood on our hands tonight

Hold me closer
Till it's over
I'm insane enough
For both of us

No matter how hard I try
You know I never could leave you
And I'm confessing my sins tonight
Swear you'll never see me again.

Watch me turn the lights out
Love me with your knives out
Never sleep make no sound

We gon' burn this motherfucking house down

Head shots
Drown me in your tear drops
Bury me so deep now

We gon' burn this motherfucking house down

Swear I used to get high
Now I only get even
And I got blood on my hands tonight

Hold me closer
Till it's over
Swear to God I barely know you

No matter how hard I try
You know I never could leave you

Watch me turn the lights out
Love me with your knives out
Never sleep make no sound

We gon' burn this motherfucking house down

Head shots
Drown me in your tear drops
Bury me so deep now

We gon' burn this motherfucking house down

Swear I used to get high
Now I only get even
And I got blood on my hands tonight

Watch me turn the lights out
Love me with your knives out
Never sleep make no sound

We gon' burn this motherfucking house down

Head shots
Drown me in your tear drops
Bury me so deep now

We gon' burn this motherfucking house down
