

One Step Closer

Short Stack

A rock show at the beach
Perfect time, time to show her
Things don't always work out
And I hope this is never over (over)

Looking deep in her eyes
She's perfect
I'm wondering whether (whether)
She thinks the same as me
And I hope that this lasts forever (ever)

CHOROUS:

Your everything that I will ever need
(You're just so beautiful to me)
And I won't go if you will never leave
(You're just so beautiful)
And we are one step closer
And we are one step closer
C'mon, c'mon, wow

Tell me should I confess
To the beat
We're taking it further
I got a way with words
And you got away with murder

CHOROUS:

Your everything that I will ever need
(You're just so beautiful to me)
And I won't go if you will never leave
(You're just so beautiful)
Place your hand in mine this lonely night
(You're just so beautiful to me)
Hold me close and I'll turn off the lights
(You're just so beautiful)
Said we are one step closer
And we are one step closer

C'mon, c'mon, woo

Da, da, da, da, da, do
Da, da, da, da, da, do
Oh, da, da, do
Da, da, da, da, da, do

CHOROUS:

Your everything that I will ever need
(You're just so beautiful to me)
And I won't go if you will never leave
(You're just so beautiful)
So come place your hand in mine this so lonely night
(This so lonely, this so lonely)
Hold me close and I'll turn off the lights

And we are one step closer
(You're so beautiful to me)
And we are one step closer
Oh, and we are and we are and we are and we are and we
are (and we are one step closer)
Just one step, just one little step
And we are and we are and we are and we are (and we are
on step closer)
Just one step

My heart is beating harder (and we are one step closer)
And it keeps getting faster
What ever happened to a (you're just so beautiful to
me)
Happily ever after? (and we are one step closer)
We're crashing 80's fashion
And flying high of the bed
So we should keep it all here
Or you're better off dead
