

# See You, Space Cowboy

Short Stack

And it breaks my heart wide open  
And it pains my world to see  
The words I wish you'd spoken  
Were never meant for me  
And I cry to the ocean  
And paint to let it know

So let it go, let it go  
Well let it go  
So let it go, let it go  
Oh, just let it go

And it feels like love  
And she tastes like everything that I had given up  
And it feels like love  
And it breaks my heart wide open  
Yeah it breaks my heart wide open

So let it go

And it feels like love  
And she tastes like everything that I have given up  
And it feels like love  
And it breaks my heart wide open  
Yeah it breaks my heart wide open

And it breaks my heart wide open, yeah  
Breaks my heart wide open  
Wide open
